

DECEPTION & LIES

VS.

REALITY & TRUTH

"The health & wellbeing of women & girls will be further threatened with plans for national bans & restrictions, including on forms of birth control."

The health & wellbeing of women & girls has been RIPPED away with intersex restrooms & boys in girls sports.

****FACT** - President Trump gave **STATES** authority to determine "reproductive rights". Colorado has a NO LIMIT abortion policy, including up to the day of birth.

SOCIAL SECURITY

"Health care & social security eligibility & benefits will be reduced or eliminated."

Health care is declined or nonexistent for Veterans, but illegal immigrants get FREE health care. Will we strip Social Security from our elderly & reward it to illegal immigrants next??

PUBLIC EDUCATION

"Public education funds will be diverted to private entities that have restrictive enrollment policies, less oversight & less qualified teachers."

Taxpayer funds for education should follow a parent's right of school choice. Parent's should control where & how their children are educated not the government.

GREEN NEW DEAL

"Clean air & clean water & public land policies will be weakened."

Electric vehicles run on deadly lithium batteries, that CANNOT be recycled or reused, that destroy our waters & land when disposed. Fossil fuels are essential; without them lower & middle class people (universally) are left without heat and air.

ILLEGAL IMMIGRANTS

"The support immigrants provide to Colorado ranching, farming & small businesses will be impacted by blanket deportation policies."

Sanctuary cities cannot arrest, detain or deport ANY illegal immigrant. Illegal immigrants steal from the EARNED rights of migrants that have lawfully completed the process to citizenship. No nation can survive having both a social safety net and unfettered illegal immigration.
