

## **BILLIONAIRE DOUBLES DOWN ON BUYING COLORADO'S ELECTION SYSTEM**

Billionaire Kent Thiry has spent more than \$7 million dollars trying to take over Colorado's election system for his own benefit. He brought you the disastrous open primary system, with the help of Democrats and RINO/UniParty Republicans.

But that still left things in the hands of pesky voters so now Thiry is spending millions on lawyers, petition gatherers, marketing campaigns etc. to trick Colorado voters in approving ranked choice voting and basically eliminating both Republican and Democrat party caucuses and assemblies. Thus, killing off both the State GOP and State Democrat parties. They would be replaced with pay to play jungle primaries. The Colorado Supreme Court this week approved one of Thiry's ballot initiatives so it will be on the November ballot.

But just in case voters see through Thiry's election scam and turn it down in November, he's now buying Colorado legislators. In the final days of this week's primary election, Thiry poured more than a million dollars into 13 legislative races, and he won eleven of them. At least he's bipartisan in his bribery, donating tens of thousands of dollars to eight Democrats and tens of thousands of dollars to five Republicans. That includes Weld County Republican Senator Barb Kirkmeyer who has been dubbed Queen of the RINOs.

In the last legislative session, traitor Kirkmeyer pushed a bill that could have eliminated the assembly system. It failed but Thiry just bought himself eleven new votes in the upcoming legislature and you can be sure he will demand his puppets jump when he yanks their strings.

These are the Thiry bought and paid for Republicans in the Colorado Legislature that we keep an eye on.

Sen. Barb Kirkmeyer in SC23. (no shock here)

Sen. Larry Liston in SD10 (another longtime RINO)

Rep. Lisa Frizell in SD2

Max Brooks in HD 45

J. Mark Roeber in HD58
